Tsung-Min (Vincent) Pai

tsungmip@andrew.cmu.edu | (412) 224-3420 | www.linkedin.com/in/tsung-ming-pai/

EDUCATION

Carnegie Mellon University — Pittsburgh, PA
Master of Science in Electrical and Computer Engineering — *Expected Dec 2027*

National Taiwan University — Taipei, Taiwan
Bachelor of Science in Engineering, Electrical Engineering — *Dec 2025*

- **Relevant Courses:** Machine Learning, Generative Artificial Intelligence, Data Visualization

PROFESSIONAL EXPERIENCE

LOGOLO International Inc. — New Westminster, Canada
AI Engineer | Contractor, Remote — *Sep 2025 - Aug 2026*

- Built a national **legal-exam AI grader** on rubrics co-defined with legal-domain experts, delivering real-time feedback at 95% accuracy and cutting turnaround 90% via a parallelized pipeline.

Genibuilder Inc. — Taipei, Taiwan
Founding AI Engineer | Full Time — *Sep 2024 - Aug 2025*

- Engineered a **conversational AI agent** to replace aesthetic clinic consultants, automating the advisory process for real-time response and reducing client operational costs by 80%.
- Built an AI system realistically **simulating user-product interactions**, reducing manual validation time by over 80%.
- Developed an AI-powered data extraction pipeline to automatically deliver authentic client chat logs for the R&D team.

Compal Electronics — Taipei, Taiwan
AI Engineer | Intern — *Jul 2024 - Aug 2024*

- Conducted research on knowledge graphs, GraphRAG, LLM agents, and fine-tuning for **product improvement**.

ACADEMIC PROJECTS

Billy: Steering LLMs via merging persona vectors for creative generation — Taipei, Taiwan
National Taiwan University | Advisor: ***Prof. Hung-Yi Lee, Prof. Shao-Hua Sun*** — *Nov 2023 - Oct 2024*

- Replaced multi-agent discussion with persona-vector merging inside a single small LLM, raising originality 15% while cutting inference cost 95% versus multi-agent baseline.
- Published at EACL 2026, Oral - First Author.

LLM discussion: Enhancing the creativity of LLMs via discussion and role-play — Taipei, Taiwan
National Taiwan University | Advisor: ***Prof. Hung-Yi Lee, Prof. Shao-Hua Sun*** — *Nov 2023 - Oct 2024*

- Implemented a role-play discussion framework raising LLM creativity scores 20% over prior methods.
- Devised an LLM creativity benchmark reaching 0.7 correlation with human raters over 1,400+ generations.
- Published at COLM 2024.

EltAI Engine — Multimodal RAG Sports Agent — Taipei, Taiwan
GenAI Stars Hackathon | Team Leader — *Oct 2024*

- Designed a multimodal RAG agent for ELTA TV with live game analysis, multilingual Q&A, and outcome prediction.

LEADERSHIP

Department Basketball Team, NTUEE — Taipei, Taiwan
Coach / Vice Captain — *Sep 2021 - Aug 2025*

GenAI Stars 2024 Hackathon, High Distinction Award (Top 10 of 836 Teams) — Taipei, Taiwan
Team Leader — *Oct 2024*

SKILLS

Programming Languages: Python, C++, Golang, HTML / CSS, Matlab, JavaScript, Verilog

Develop Tools: Pytorch, Scikit-Learn, LangChain, LlamaIndex, DSPy, GCP, Git, MongoDB, Redis, PSpice
